ABOUT ME

Computer Engineering graduate with hands-on experience in ASP.NET MVC, ASP.NET Core, WebForms, SQL Server, and Oracle. Skilled in developing web applications, database-driven systems, and enterprise-level modules. Seeking a Software Developer role in a reputed IT organization where I can contribute to backend development, database management, and full-stack solutions while continuously enhancing my technical and analytical skills.

EXPERIENCE

Ramanshee Infotech April 2024 - Present

Software Developer - Bhavnagar

- Developed and maintained multiple enterprise modules using ASP.NET MVC, WebForms, C#, and SQL Server.
- Worked on Oracle and SQL Server for data-driven application optimization.
- Utilized SQL Management Studio to streamline database operations and ensure efficient query execution.
- Enhanced system performance by improving backend architecture and optimizing stored procedures.
- Collaborated with cross-functional teams for requirement analysis, debugging, and deployment.

PROJECTS

- **IPCL Machine Maintenance System**

  Tech : ASP.NET MVC, SQL Server , HTML , CSS , JS
  - Built a centralized machine maintenance tracking system for scheduling and monitoring.
